LEAD CLIMB SAFETY COMPETENCY

I alexandra dudley and/or my child/minor

acknowledge that I/we have undertaken the Gravity Worx safety Assessment for lead climbing within the gym.
As such I/we have a thorough understanding of the following

- * Gravity Worx Centre Rules
- * Proper use of auto belays and safety "Climber Above" drop down mats
- * Proper use of Karabiners (including that I/we must have two karabiners clipped in opposing directions an all auto belay and top roped setups)
- * proper ground sling length
- * Proper communication
- * buddy check prior to leaving ground
- * Correct "5 step" belay method for top roped climbing
- * Correct lowering method for all roped climbing
- * Gravity Worx takes **NO** responsibility for the condition of my personal climbing equipment and that it is my responsibility to provide my own lead climbing equipment, except in situ quickdraws(Gravity Worx Centre Rules - Lead climbing rules)
- * Proper use of in situ quickdraws (No back clipping or Z clipping allowed)
- * Lead climbing is only performed with a climbing partner who is also an accredited Gravity Worx lead Climber
- * Proper method for arresting a lead climber fall, and taking a lead fall
- * I/we must obtain a lead climb pass on the day of climbing , and this will only be issued if staff member deems lead climbing is suitable with regards to other current activity within the gym, and may be limited to particular walls
- * Gravity Worx lead climbing proficiency assessment in no way indicates my ability to climb outdoors, which requires skills of protection placement.

I/we have achieved the necessary skills to Lead Climb and Lead Belay, Top Rope climb and use the auto belays.
