Felswerk – climbing together. Safe on the road.

General Terms and Conditions (GTC)

of Felswerk Kletterhalle GmbH, as of: 01.09.2025

1. Scope and opening hours

These GTC apply to all contracts between Felswerk Kletterhalle GmbH (hereinafter referred to as the "Operator") and the users of the climbing hall, regardless of whether a subscription membership or individual admissions are agreed. The climbing hall is generally open all year round; Closures ordered by the authorities or necessary closures for objective reasons (e.g. route construction, expansion and conversion of wall areas or damage), partial closures or temporary closures of less than one week, as well as changes in opening hours, do not give rise to any claims for reimbursement or termination. In the case of temporary complete closures of one week or more, subscriptions will be extended accordingly.

2. Beginning and End of Subscription Membership

Subscription membership begins upon signing of the subscription contract and, unless expressly agreed otherwise, has a minimum contract term of 5 months. The subscriptions are then tacitly extended for an indefinite period of time, unless they are terminated in writing with a notice period of one month to the end of the contract period. During the term of the contract, ordinary termination is excluded. The right to extraordinary termination remains unaffected.

3. Membership Concept

A member within the meaning of these GTC is any person who has agreed to the GTC and Terms of Use by signing the registration form or by electronically confirming the Terms and Conditions. This applies to both subscription members and users with individual admission. All members are obliged to comply with the terms of use.

4. Non-transferability and membership card

The rights of use acquired with a subscription membership or a single entry are highly personal and non-transferable. Subscription members receive a membership card, which must be kept carefully and must not be passed on to third parties. Loss or damage must be reported immediately. A reimbursement of costs of €15 (incl. VAT) will be charged for the issuance of a replacement card, unless the necessity is not due to the fault of the member.

5. Contributions and payment methods

The fees are based on the current price list. Regular membership fees are due on the 1st of each month and are calculated online via the service provider Stripe.

Partial months: (1) If a membership exists in a calendar month only on a pro rata basis, a refund of overpaid fees will be made on the first day of the following month, rounded to the nearest full euro. (2) If the membership begins in the course of a month, a pro rata membership fee, rounded to the nearest full euro, will be collected together with the fee for the following month.

6. Discounts

Discounts can only be selected if the requirements are met and proven. If the conditions no longer apply, the operator is entitled to switch to the normal tariff and also collect the difference retroactively.

7. Non-use

The non-use of the facility does not entitle the holder to reclaim contributions. In the event of medically certified downtime of at least four weeks, a credit will be issued. During the absence, the membership card must be deposited with the operator.

8. Default of payment / termination for good cause

If the member defaults on payments or significantly violates contractual obligations or the terms of use, the operator is entitled to terminate the contract without notice for good cause and to withdraw the access authorization immediately. Further claims for damages remain unaffected.

9. Extraordinary termination by the member

In particular, the member is entitled to extraordinary termination (with effect for the future) for the following reasons: (1) pregnancy, (2) illness with permanent impossibility of use, (3) relocation of the main residence to a distance of more than 50 km. The reason for termination must be proven. Notices of termination must be in text form.

10. Return of the membership card

When a subscription membership is terminated, the membership card must be returned immediately.

11. Force majeure and official closures

In the event of government-ordered closures, pandemics (e.g. COVID-19), natural disasters or other cases of force majeure, there are no claims for a refund or extension of the contract period. Current subscription memberships will be suspended for the duration of the

closure, i.e. extended by the closure period. Prepaid contributions for the closure period will not be refunded. The operator is not obliged to provide substitute services.

12. Rights of use and house rules

The member is entitled to use the facilities during opening hours. The Terms of Use are binding and part of the contract. Instructions of the hall staff must be followed.

13. Liability

The use of the facility is at your own risk. The operator is liable within the scope of the statutory provisions for intent and gross negligence as well as for damages resulting from injury to life, limb or health.

14. Valuables

The operator assumes no liability for valuables brought in. Placing them in lockers does not create a custody relationship.

15. Consumption

The consumption of food and beverages brought along is only permitted in the designated areas and only to an extent that does not interfere with operations.

16. Data protection

The processing of personal data is carried out in accordance with the GDPR and exclusively for contract processing, customer support and – as far as permitted – for its own advertising purposes. Further information can be found in the data protection information of the operator.

17. Reservation of amendment

The Operator is entitled to amend these T&Cs – with the exception of the main performance obligations – with effect for the future. Changes will be communicated in text form. The user can object; if the objection is not made, the changes will enter into force at the specified time. This is expressly pointed out.

18. Final Provisions

There are no ancillary agreements. Changes and additions must be made in text form. If a provision is invalid, the remainder of the contract shall remain valid; the statutory provision shall apply instead of the invalid provision. The German version of these Terms and Conditions is exclusively authoritative. Translations are only for comprehensibility
